Naveen Aila

BI-Analytics Leader @Amazon | MS in Data Science
Canada

Summary

Amazon's transportation team leverages the expertise of a Business Intelligence to deliver impactful data-driven insights. With over three years in the BIE II role, I have demonstrated advanced proficiency in SQL, Python and scalable analytics solutions that enable operational excellence. Recent projects focus on optimizing transportation execution through interactive dashboards and strategic data analysis.

Prior to Amazon, contributions at FedEx showcased a commitment to improving business processes and decision-making through analytics. Notable achievements include automating reporting workflows and creating compensation reports that guided leadership on sales strategy. Their mission is to empower organizations to translate complex datasets into actionable strategies that drive measurable outcomes.

Experience

Amazon

Business Intelligence Engineer II
August 2022 - Present (3 years 10 months)
Vancouver, BC

- Led a team of 2 BIEs and modernized BI architecture by migrating legacy systems to AWS Redshift, reducing costs by 30% and improving data scalability and runtimes during HVE's.
- Spearheaded the design of a centralized Speed Analytics platform that integrated 10+ KPIs into one unified dashboard, enhancing real-time visibility and cutting the refresh time from 1 hour to under 2 minutes.
- Automated the Glance View Speed bridges backfill process by redesigning the data

pipelines using Airflow and optimized the query runtime, which reduced manual effort of

5-8 hours every week.

- Implemented Transit Time Pads in Glance View analytics to uncover 800bps speed losses,

improving 1D/2D delivery performance by 1.5% by co-ordinating with Amazon Speed

Europe (EU) teams.

- Developed In-region Ideal FC logic by adding Vendor Flex Sites to improve Transportation

Execution efficiency, driving a 2.8% improvement in Delivery Excellence metrics.

- Partnered with 'L8' leadership as the Speed team SME to deliver real-time ad-hoc insights

during major events (Prime Day, Big Deal Days), enabling faster decision-making and

operational excellence

FedEx

5 years 7 months

Senior Data Analyst

April 2020 - August 2022 (2 years 5 months)

Memphis, Tennessee, United States

Working on building compensation reports for sales and helping the higher management with decision making by providing analytical insights in customer, compensation sales data
